

Hi I'm DASIA.

[about me](#)[work](#)[resume](#)[contact](#)

Bringing creative ideas to LIFE.

Welcome to my page! My name is Dasia and I began my career journey wanting to become a graphic designer . While in high school, I was told if I put "engineer" at the end I would make a lot of money. I'm sure they meant to say Industrial Design but somehow I resurrected out of college with an Environmental Engineering degree. I quickly realized that construction and hydraulic design is not for me so I enrolled in a full-stack bootcamp with hopes to trade all that in for coding and website design.

work

A screenshot of a website comparing Marvel and DC heroes. It features two main sections: "TEAM MARVEL" on the left and "TERM DC" on the right. Each section has a "CHOOSE YOUR HERO" dropdown menu with options like SPIDER-MAN, CAPTAIN AMERICA, and WONDER WOMAN. Below the dropdowns are buttons for "CAPTAIN AMERICA" and "WONDER WOMAN". At the bottom, there's a large "MARVEL VS. DC" button.

A screenshot of a weather dashboard titled "Weather Dashboard". It includes a search bar for cities, a dropdown menu showing "DALLAS" and "ATLANTA", and a detailed weather forecast for Atlanta on December 10, 2021. The forecast shows a temperature of 28.43°F, wind at 1.54 MPH, and UV index at 2. At the bottom, it displays a 5-day forecast for the dates 2021-12-11 through 2021-12-15.
